Indian Marauders in Texas.

Fort Concho, Texas June 27—The mail coach from Concho to Fort Davis was attacked by Indians last night near Pecos river and a passenger wounded seriously, the stage [illegible]. This is the first time the large stage has been attacked in this vicinity but it was not unexpected as the Indians entirely ignore the military whom they neither fear nor respect, and with good cause for in the past two or three months men have been repeatedly shot in this vicinity, but nothing has been done to chastise the Indians

WASHINGTON CITY.

Removal of Military Headquarters

Washington, June 27.—The war department has issued orders requiring all military headquarters to be established at military posts. This does not affect Gen Sheridan, who remains in his present quarters at Chicago because there are no government buildings there to be used for the purpose. As [illegible] McDowell, at the Presidio, and [illegible], at Fort Leavenworth are already at military posts, the new arrangement does not affect them. The headquarters of the department of Arizona will also remain at Prescott. [illegible] Hancock, commanding the military division of the Atlantic, goes to Governor's Island, New York harbor, Gen Howard to Fort Vancouver, Gen. Terry to Fort Snelling, [illegible] to San Antonio, Texas, arsenal, and [illegible] to Newport barracks Kentucky [illegible] department and personal staff in [illegible] accompanies the commanding officer. Gen. Crook, of the department of the Platte, telegraphs that seven new buildings are to be erected at the Omaha barracks for [illegible] which gives rise to a wild and probable rumor that the headquarters may be removed to Camp Douglas, near Salt Lake City. In every case the recent order of congress [illegible] no allowance for officers quarters [illegible] will be strictly enforced

The Mint and the Silver Question.

Washington, June 27.—The director of the mint to-day received applications from two [illegible] New York parties requesting permission to deposit silver bullion at the Philadelphia mint for returns in trade dollars [illegible], with the approval of the secretary of the treasury, to-day refused both applications, stating as a reason for the refusal that the full capacity of all the mints will be required for an indefinite time, from and after [illegible], to coin standard silver dollars

Glover Disclaims.

Washington, June 27.—Director Linder [illegible] to-day received the following from Congressman Glover, chairman of the house committee on expenditures in the treasury department. It refers to statements published [illegible] about the 17th and 18th inst purporting to be made on authority of Glover by [illegible], an expert employed by the committee, and as published in some quarters purporting also to be conclusions of the committee. The same statements in substance have been published under more recent dates

The article was not [illegible] by Edelman or with my knowledge or [illegible] contained points which were never [illegible] before the committee. Respectfully

A Side Investigation

[illegible], June 27.—The *Journal's* Washington special says the Potter committee at the instance of Potter has entered upon a side investigation to ascertain whether Packard or [illegible] was legally elected governor of Louisiana. To-day the fact came out that at the last session the other day Gen Butler said [illegible] be able to prove that the electoral vote of Louisiana was given to Hayes in pursuance of an agreement whereby the state government was given to Nicholls although Packard was elected Butler said he would show a corrupt bargain whereupon the Democratic members of the committee voted [illegible] to this side investigation At the examination of Pitkin to-day Butler laid the foundation for proving an alleged bargain. He said to the committee in open session that if he should prove that Packard was fully elected, he believed Hayes was entitled to the vote of Louisiana as well as the vote of every southern state, if a free and fair election could have been held. The committee at the instance of Butler has caused a telegraphic summons to be sent to Packard at New Orleans, to come before the committee before sailing for Europe Butler said he thought Packard would throw some light on the transaction. It was a fact he said which could be proven, that the returning board of Louisiana was only kept up to its work during the count by promises that they should not be harmed, but taken care of

THE POTTER INVESTIGATION

What Marshal Pitkin Thought

[illegible]

Q—What was said relative to [illegible]

A—They said that when they arrived in Washington they would see Mr Hayes and arrange to have all leading Republicans who had borne the brunt of the work in Louisiana taken care of

Q—Did that include Anderson

A—Anderson's name was not mentioned

[illegible] Kellogg [illegible] maintained itself without the aid of federal troops

A—Yes sir, there were no federal troops in New Orleans

Pitkin gave a detailed story of the [illegible] legislature. At that conference [illegible] Marshal [illegible] the lamp posts [illegible] Witness was prepared with papers [illegible] which contained a number [illegible] New Orleans [illegible] Packard [illegible] Harlan also exhibited great [illegible] had been down there and [illegible] as they wanted to stay and this did [illegible]

Afterwards [illegible] Jenks took her meal at his place [illegible] winter she came into dinner and I took a seat by her at the table [illegible] I asked her what was the matter [illegible] and she had [illegible] Sherman [illegible] New Orleans and on questioning her she referred to a letter from secretary Sherman to Mr Weber the man who was killed. We had many [illegible] about that matter [illegible] on [illegible] the letter was in New Orleans and that she would have to go home to get it but that she would be back again in a few days

[illegible] met Governor Noyes and had many conversations with him regarding the electoral vote of that state [illegible] Noyes was a particular friend of Hayes and that anything he said Hayes would be responsible for, and that if the state went for Hayes the members of the returning board [illegible] that at all. I don't know of such a statement being made by Gen Lew Wallace or Gov Noyes

Q Was it not understood in Florida when Gov Noyes came there that he was special representative [illegible]

A In that form, but it was understood by me that he came there as an intimate friend of Gov Hayes. He did not [illegible] there at the instance of Gov Hayes and [illegible] heard it was stated as coming from him

Q Are you aware of any promises general or special that were made to any members of the returning board [illegible] case the state went for Hayes they should be taken care of?

A I have no recollection of such promise

Q—Did [illegible] make such promises

A Not to my recollection

Q—Did you give any assurance to take care of

A Not that I remember

Q [illegible] of the board in regard to their getting [illegible] case Hayes was inaugurated

A—I am unable to remember that I gave any assurances [illegible]

A—I do not recollect that I [illegible] and I believe I did not. That is as well as I can answer the question

Witness testified that he went to Florida at the instance of [illegible] of the Republican national committee. He did not [illegible] Hayes [illegible] back [illegible] until after the inauguration. Witness produced a telegram sent by himself to Gov. Hayes [illegible] telegram [illegible] the Kno[illegible] committee [illegible] the translation of it is Send Stanley Matthews and others of high character [illegible] favorable. Of course I sent that telegram to Mr Lee because he occupied the position of secretary to Governor Hayes I sent it to Lee as secretary of Governor Hayes and left him to do as he chose with my telegram. Of course I would not have sent it to Lee if he had not been Governor Hayes' secretary I most certainly expected that he would communicate the telegram to Gov. Hayes and be guided by what Hayes told him I will stand by any reasonable inference that can be drawn from it. Matthews however didn't come Noyes arrived about a week after sending the telegram A [illegible] then read a telegram dated Nov 18th sent by him to Zach Chandler which was [illegible] lated as follows

After full conference with all our friends now here we find the work to be [illegible] great and expeditious labor [illegible] time which I well performed will we believe insure success Noyes and Kasson will be here on Monday [illegible] wish $1000 sent to Philadelphia [illegible] majority in the state You [illegible] what the Democrats are about [illegible]

[illegible] Noyes [illegible] by the Republican managers that Noyes was a friend [illegible] of Hayes [illegible] in response to my telegram I don't remember any such conversation as McLin details and I am confident no such conversation took place I am confident I never said to anybody in Florida that I was authorized to make assurances of that kind to them. I might have stated to McLin [illegible] Noyes relations to Gov Hayes but that I said [illegible] with any assurance of any kind to McLin I do not believe

Q You simply put your recollection against his positive statement

A—This is all I will add that I don't think McLin would have made a statement if he did not believe The Republicans who visited Florida were there only to forward their interests and protect the rights of the Republican party

Witness gave the names of gentlemen who were connected with the Democratic organization and said he did not know that any of them were there as special representatives of Gov Tilden. The witness [illegible] desire to say that whenever the committee would [illegible] know what was done with that money I shall be happy to tell them

By Butler [illegible] numbers of persons who had more or less relation [illegible] administration

A—There was

Q Did Gov Noyes [illegible]

[illegible]

Q What was the contest [illegible]

A It was a [illegible]

[illegible] in his case if he did and that he had

[illegible] to rest [illegible] Hayes [illegible] letter he had written

[illegible] Noyes [illegible] as well as [illegible]

A He gave [illegible] assurance. That he would work so as to save the state ticket as he did to save the national ticket and that was entirely satisfactory

Witness [illegible] Florida at the time the [illegible] politicians were there. Adjourned

[illegible] Sunday the 16th when Mr Robie and Mr French [illegible] known as the Diamond Ranch. Both of these men were gathering up their horses, and had succeeded in a great measure in doing so. They had [illegible] a corral, with the intention of driving them towards the post but the Indians were on the lookout and fired at them from the hills. The citizens having no arms had to leave [illegible] having however they opened the corral gates thinking to stampede their horses. Instead of stampeding most of the horses ran into a marshy place and got mired. By this time every one of the citizens there succeeded in getting away excepting a Chinaman who had been cooking for Mr French at the Diamond Ranch. He [illegible] a horse but was thrown and no one knows what became of him. Two of Mr French's men got wounded one known as Jack a full blooded Indian raised in John Day valley by a white family. He was shot through the left hand losing the small finger besides. The other name is J H Witzel. He was shot through the right hip. Both of the wounded men arrived here last night and are now in the post hospital under the care of Dr Barthoff who will have them soon all right again. Several parties [illegible] bringing their families in started back to their ranches for the purpose of gathering stock. Some have returned, others have not. A Mr Smith and son who resided in a valley known as Happy Valley have not returned and grave apprehensions are felt as to their safety. Their relatives are now at the post are awaiting their [illegible] It is almost heartrending to see wife and children frantic with grief

The Indians are of the following tribes viz the Bannacks Piutes Klamaths and Yaunas

Lieut [illegible] A Edwards left the post [illegible] with 40 men and returned on the [illegible] did not see any Indians

I should have stated before that the two companies ordered to Boise returned to the post after they had arrived at the Malheur agency. They found everything [illegible] and a courier from here overtaking them there with dispatches reporting brought them back

FRIDAY MORNING JUNE 28 1878

BASIS OF THE NATIONAL PARTY

It is remarked as a phenomenon of the times that the so-called National party, that is, the party which has its [illegible] of [illegible] in the [illegible] of an [illegible] irredeemable paper currency, is making no [illegible] considerable progress in [illegible] where until recently it never [illegible] thing which in the states of the west [illegible] had its origin more than ten years ago the movement is [illegible] not actually dying out. In Maine it will probably [illegible] this year one fourth of the vote of the state while in Pennsylvania it will draw [illegible] from both the old parties. On the other hand in [illegible] and Indiana it is plainly on the decline. It is not too much to say that the [illegible] supposed millennium for labor that is expected somehow to result from the tremendous inflation that would be caused by paying off the bonded debt of the United States in irredeemable greenbacks gives the so called National party whatever cohesion it possesses and inspires it with the enthusiasm by which it hopes to win its way both in state and national politics. It captivates people who remember the good times that seemed to come out of the greenback inflation of 1863 and they want those good times restored.

But would this make us happy? Undoubtedly such inflation would enable every debtor to get rid of his debts. It would be as easy then to pay one hundred dollars as it is now to pay one fifth of that sum. Thus it would be the same as a national bankrupt law declaring that everybody should have a free discharge on paying a small fraction of his debts. If national and individual dishonesty of the widest kind is the road to happiness and prosperity this would be the thing. As for the laboring men, it would turn into ashes every dollar of their savings and make them a prey for every sharping "operator." They would suffer, while the wealthy borrower of money and above all the speculator and money shark, would get rich as they always do on any vast disarrangement of the money system of the country. Wages of course would go to high prices but they would not rise so rapidly as the rates of living. On labor the brunt would surely fall. A stable currency is the protection of the poor and an unstable one the opportunity of the rich. The delusion that values can be made out of nothing is one of the most singular and yet one of the most persistent of the present time. It is the basis of the organization that endeavors to struggle into permanent existence under the ambitious name of the National party.

IT IS NOT PASTIME

Eastern newspapers are beginning to criticise the present campaign against the Indians as they did that of last year. Hardly had they heard of the outbreak before they began to sneer at Gen Howard again for the alleged slowness of his movements. They appear to think that he ought to have been prepared to annihilate time and space and pounce down upon the Indians within twenty four hours after the outbreak occurred. It does not seem to have come to their knowledge that there are distances in the great west. We have seen several eastern journals which evidently have an impression that they had a right to expect news immediately that the Indians were annihilated, and because it did not come they renewed their gibing at Gen Howard. Critics like these have no conception of the actual situation and no knowledge whatever of the difficulties that attend campaigning against the Indians in the wide and open country where pursuit calls for great sagacity in a commander and taxes the endurance of men to the utmost. The best judgment is liable to be baffled in the movements of such a campaign. The Indians don't send notice where they are to be found or how they can be attacked with best advantage. They can move more rapidly than any troops; they can hide when it pleases them to do so or come forth and fight in what situation and under what advantages they choose. Weeks are required for troops to traverse the great distances embraced within the area of the present war. To look for immediate results under these circumstances is peculiar folly and yet not a few eastern journals talk as if Indians on resolving upon war have a habit of coming out to meet the army on an open plain and, as the French did on a celebrated field, were accustomed to move up right in front of their antagonists and say with the greatest civility "Gentlemen will you have the goodness to fire?" Our Indian wars are not pastimes of this description.

In the conference of the committees of the two houses on the army bill the conferees on the part of the house of representatives yielded the point as to the proposed reduction and the strength of the army is retained at 25 000 men. The propositions for reorganization of the army and the transfer of the Indian bureau to the war department are referred to a commission consisting of five representatives and three senators. It is provided that pending the consideration of the matter of reorganization by the commission and by congress there shall be no promotions beyond the grade of captain, and no original appointments shall be made except to the lowest grade, and these only from the military academy. After July 1 the pay of officers will be as follows: General $13 500; lieutenant general $11 000; major general $7 [illegible]; brigadier general $5 500; colonel $[illegible]; lieutenant colonel $3 000; major $2 500; captain mounted 2 000; captain not mounted, $1 800; first lieutenant mounted $1 600; first lieutenant not mounted $1 500; second lieutenant mounted $1 500; second lieutenant not mounted $1 400; adjutant $1 800; chaplain $1,500.

From a telegram just published it appears that government is now buying silver at a rate which makes the cost of the new dollar only 85 cents. The market price of the [illegible] is however nearly 12 cents more [illegible] government now makes this large profit [illegible] cannot continue beyond the time when the supply of these dollars becomes abundant because their value must then decline [illegible] [illegible]

There is a telegram to [illegible] relative [illegible] the several departments to military posts. The [illegible]

less we are misinformed is not imperative on this point but leaves the matter to the discretion of the secretary of war. It is true so the secretary were he rightly informed as to the state of affairs in this department might be [illegible] the [illegible] headquarters from Portland to Vancouver. To erect buildings at Vancouver and make the necessary preparations for keeping the headquarters there will involve an expense of [illegible] hundred thousand dollars [illegible] Portland [illegible] buildings at Vancouver and expense of transportation [illegible] [illegible] But the order has been given [illegible] probably will not be [illegible] voked.

The [illegible] gives the following short history of petroleum. The production of petroleum as an article of trade dates from the 28th of August 1859 when Colonel Drake in a well sixty nine and a half feet deep struck oil and coined a phrase that will last as long as the English language. From that beginning it has increased to an annual production of [illegible] barrels of crude oil. The first export was in 1861 of [illegible] 000 barrels valued at $1 000 000 and the export of petroleum for the year 187[illegible] was in round numbers $62 000 000. The annual product of petroleum to day—crude and refined—is greater in value than the entire production of iron and [illegible] more than double that of the anthracite coal of the state of Pennsylvania.

Jefferson Davis has written a letter to Representative Singleton of Mississippi in which he denies that he incited the people of that state to precipitate secession. The mystery is how it ever could have been possible to precipitate since no man has been found yet who did not oppose it. We still hear the leaders of the movement constantly asseverating that they were against it while the masses of the people have always claimed that they were forced into it. [illegible] been successful what then?

The leading exports from the United States are relatively as follows: Cotton annually from $1[illegible] 000 000 to $227 000 000; wheat and wheat flour from $60 000 000 to $130 [illegible]; pork and its products (bacon hams and lard) from $[illegible] 000 000 to $82 000 000; and petroleum from $48 000 000 to $[illegible] 000 000. With these figures looking us in the face it would appear that the cry of hard times ought not to be heard in the land.

In Massachusetts political observers are settling down to a belief that Butler means to run this fall as an independent candidate for governor. He has the support of the workingmen and greenbackers and also of a large number of the prohibitionists. It is also thought that the Democratic vote will largely go to him in order to make mischief and that his election is a possible thing.

FRIDAY MORNING, JUNE 28 1878

CITY.

CONFIRMATION AND FIRST COMMUNION.—Says the Sentinel: On the feast of Corpus Christi Archbishop Blanchet assisted by Rev J Fa[illegible] chaplain, administered the sacrament of confirmation to thirteen orphan children in St. Mary's chapel attached to the convent of the Sisters of the Most Holy Names in this city. Quite a numerous congregation witnessed the edifying ceremony. On Sunday morning last 34 children received first communion at the hands of Very Rev J F Fie[illegible] V. G., during the 8 o'clock mass. The children were prepared for the reception of the soul-saving sacrament by Very Rev. Father Fierens, and they presented a beautiful spectacle as they filled the communion rail of the temporary church. Just prior to high mass Archbishop Blanchet administered the sacrament of confirmation to the same children and several adults, in all 43 persons.

[illegible] HIGHWAYMAN ARRESTED.—Mention was made a few days ago of the arrest of a man on board the eastside train by Officer [illegible], and of his lodgment in jail. The man was arrested under the name of Chas Barnes. It seems that he is a gentleman of various names. Last evening the deputy sheriff of [illegible] county, California arrived here on the train, having in his possession a warrant for his arrest. He says in that portion of the country the prisoner went by the name of Charles Foster. The prisoner is supposed to have had some connection with the stage robbery which occurred last spring in Trinity county, California. Barnes alias Foster is about 23 years of age, and is a very hard looking customer.

[illegible] INJURIES.—Wednesday evening a horse attached to a wagon took fright in the lower end of the city, and ran away. An old gentleman named West his wife and son were seated in the wagon at the time. The wagon was upset and the occupants hurled to the ground. Mrs West sustained serious injuries, and her recovery is very doubtful. The son received severe bruises about the head and had his mouth cut in a [illegible] manner. Fortunately Mr West escaped with slight injuries. The wagon was broken to a complete wreck.

[illegible] ELECTED.—At a general meeting of the Turn Verein, held last evening the following officers were elected to serve for the balance of the year: Ludwig Levy president; [illegible] Lindemann, vice-president; D [illegible] recording secretary; G. Franz corresponding secretary; C. A. Alisky, treasurer; [illegible], first leader; F. Eilers, Jr., second leader; F. Simon, first warden; Otto Con[illegible] second warden; E. Stebinger, librarian.

[illegible] McCULLY SUNK.—At 4 o'clock yesterday morning, as the steamer A A McCully was [illegible] Hedges' bend, half a mile below Independence, she struck what is called Accident snag. She sank below [illegible] careening to one side. None of [illegible] was damaged. She was bound for [illegible] and had some twenty tons on board. [illegible] S. T. Church started up Thursday [illegible] of the accident.

[illegible] SPIRITUAL RETREAT.—Rev P Mans[illegible] is expected to arrive by the next steamer for the purpose of giving the annual spiritual retreat to the Sisters of Charity, at Vancouver. Father Mans was a missionary for many years in the diocese of Nesqualy, and his many friends in this state and Washington [illegible] will welcome his brief sojourn [illegible] with feelings of love and gratitude.

[illegible] MATCH.—On Saturday there will be a game played between the eleven chosen [illegible] Victorians and a team composed [illegible] of members of the cricket club [illegible] some of our crack base ball players. It will no doubt be a very interesting [illegible]. The players who are not chosen to [illegible] against the Britishers speak loudly [illegible] to get away with the elect.

[illegible].—This commodious steamship [illegible] leave to-morrow morning at 3 [illegible], with freight and passengers, at the [illegible]. Cabin passage $15 steerage [illegible]. freight, per ton, $2. Mr Geo W [illegible], the gentlemanly agent will furnish [illegible] information to those desiring to [illegible] or ship freight.

Y. M. C. A.—There will be a meeting at the rooms of the Young Men's Christian Association this (Friday) evening at 8 o'clock, sharp. A full attendance is desired.

PORTLAND HIGH SCHOOL.

FOURTH ANNUAL COMMENCEMENT OF THE PUBLIC HIGH SCHOOL—ESSAYS, ORATIONS AND ADDRESSES—PRESENTATION OF DIPLOMAS TO THIRTEEN GRADUATES

The teachers and graduating class of the public high school of the city have been for some time making preparations for the event of last evening which was an exhibition by and presentation of diplomas to the pupils who have completed the prescribed course of study.

AT THE NEW MARKET THEATER

Before the time for the commencement of the exercises the spacious and elegant theater was crowded by pupils and patrons of our common schools by the friends of education and the citizens generally. Quite a number of visitors from other parts of the state were also present and we can but be impressed by the interest and pride which Portland manifests in her public schools as evinced on this occasion.

At 8 o'clock the Directors of the district, city superintendent, the teachers, the principals of the city schools and a graduating class of five young ladies and eight young men took seats upon the stage. [illegible] executed in a masterly manner [illegible] and the exercises were opened. For so large a crowd excellent order was preserved generally though some parties thoughtlessly allowed themselves to keep up a whispering or talking which somewhat disturbed those who were desirous of hearing what was going on upon the stage.

At the conclusion of the opening piece of music Miss Mary E Test stepped forward and delivered the salutatory entitled "Launching." In assigning Miss Test to the first place on the programme did not save the best of the wine till the last of the feast for while many of the class did well none of them excelled her in the appropriateness of language beauty of thought elocutionary effort or stage propriety. She spoke clearly and distinctly and her effort was heartily applauded.

Frank J A Steinbig followed with an essay on "Power" which for one so young showed an inquiring and comprehensive range of thought. More deliberation in delivery which he will doubtless gain by experience will make him a good speaker.

Miss Sophie Dinkelspiel read in clear and distinct style a carefully worded finely arranged and pleasing essay on "Gathering Shells" which was regarded by many in the audience as the gem of the class productions and was certainly worthy of the young lady's head and pen. The audience heartily applauded her at its close.

W D Connell read next on "Science in Small Things" and like those who preceded him did well for a lad of his years evolving thoughts in connection with seemingly unimportant things in every day life that never enter minds of many much older persons.

Miss Ida Yocum a petite blond with a face full of vivacity and intelligence followed with a longer essay on "The World's Work and the World's Workers"—a subject which she handled with a good deal of ability for a young girl though in regard to some of the great characters which she portrayed, especially Henry Ward Beecher many of her audience might differ from her idea that he is one of the world's great and good workers. Her presentation of the subject was in many respects original and deserved the applause which it received.

D D Shindler's essay on "The Human Voice" treated of the cultivation of the voice and being of a somewhat comical character created a good deal of amusement among the audience.

Edward G Jones chose for his subject "Superstition" and treated it in a very distinct manner being as well understood by his audience as any of his class mates. His voice is a fine one for public speaking and with more care in the emphasis and the modulation of his voice on important words and phases he would make a pleasing and entertaining speaker.

"Reason the Pilot of the Soul" was the subject of the essay read or rather delivered off hand in most excellent style by Miss Cora J Yocum. This young lady has a good stage presence with a good deal of that pathos in her manner which helps to attract and hold the attention of her auditors. She was listened to with the utmost interest and enthusiastically cheered as she retired.

The valedictory an oration on the subject of integrity by Mr O F Paxton was well arranged and evinced a knowledge of what is appropriate on such an occasion that is not always shown. His manner was somewhat at fault in that he did not seem to enter as fully as might be into the spirit of what his lips uttered but yet we must remember that he as well as the rest are just coming on the stage of public life and should not be subjected to the same strict rules of criticism that are applied to professionals or older persons.

As a whole we think the class have little reason to regret their appearance last evening and we doubt not that all will be able to see what defects may yet be theirs and to remedy them by study and attention. Their efforts we think compare very favorably with any prior graduating class of our high school. In addition to those named above, the following had prepared graduating essays and received diplomas. They were excused from reading their essays on account of the length of the programme and not from want of merit: Emanuel Lyon subject of essay "International Expositions"; Minnie I Trask "Conflict of Duties"; Alvah S Going, "Thought" and Edgar A Goodnough "Our Country's Hope."

At the close of the exercises by the class Hon J N Dolph delivered an address to them which we are sorry want of room forbids us to publish, as it was highly interesting and replete with instructive ideas not only for those to whom it was addressed but would be so to all. He impressed upon the class the necessity and importance of self reliance, industry integrity and honesty in all the walks of life and closed with sound practical admonitions which we doubt not will be productive of good results in those who listened.

The presentation of the well earned diplomas was made by his honor Mayor Newbury in fine well timed remarks and the exercises were then closed by the singing by the class of the class song—a very touching and well written song composed for the occasion by Miss Helen F Spaulding. Altogether the entire affair was successful in every way and reflects credit on all connected with our excellent High School.

The president stated that it became his sad duty to announce to the society the death of two of our members since the last meeting: Eugene Ruf? Fiske A M M D a charter member who had been placed upon the list of honorary members at the last meeting of the society. Dr Fiske was born June [illegible] 1816 and died August 5, 1877 at his residence in Salem. Joseph P Tate M D of Albany was one of our charter members and up to the time of his death was an active member of this society. Dr Tate died at Albany, where he had so long labored, on the 11th of June 1878.

The president appointed as that committee Drs O P S Plummer W H Watkins J A Richardson. In a short time they presented the following:

Resolved, That we have lost from our ranks a high minded practitioner and Christian gentleman—one who ever commanded respect and admiration for his many noble qualities of heart and mind and who the better known was more esteemed and loved.

Resolved, That while we are once again reminded of the weakness of our humanity we rejoice in the knowledge that our brother long a sufferer in the flesh was healed of the blemish of sin gone to the untroubled possession of that reward which thank God we are permitted to hope shall one day be ours.

It was voted to receive the resolutions and that they be engrossed upon the minutes. The secretary was instructed to send a copy to the family of deceased and to have it published in Albany and Portland papers.

C H Hall M D moved that a committee of three be appointed to prepare a suitable expression of the society on account of the death of Dr Fiske. On that committee were appointed Drs C H Hall H Carpenter W H Saylor. The committee in a short time presented the following:

WHEREAS Our coadjutor F R Fiske M D late of Salem Oregon has died since our last annual meeting and in attestation of his many virtues as a Christian gentleman and scientific physician of much more than ordinary attainments and extensive practice therefore be it resolved

That in the death of Dr Fiske this society has lost one of its most distinguished members and the profession one of its most eminent lights.

That we will ever hold his memory in the highest regard for his excellent counsel and inherent worth as a citizen and physician of great skill and worth.

That a copy of these resolutions be published in the daily papers of Salem and Portland and a copy sent to the widow of the deceased.

COMMON COUNCIL.

REGULAR MEETING JUNE 2[illegible] 1878

Last evening the regular meeting of the Common Council was held at the chamber at [illegible] o'clock.

His Honor Mayor Newbury in the chair. F [illegible] Durham auditor and clerk and Chief Bester in attendance.

Members present Andrus Lambert Opitz Payne Simon Stoltz and Weber.

Minutes of the last regular meeting read and approved.

MR DURHAM ELECTED CLERK

Councilman Opitz moved that the regular order of business be suspended and that the council proceed to the election of an auditor and clerk. Motion prevailed.

Mr Opitz placed in nomination for that position Mr R J Durham the present incumbent. There being no other nomination the council proceeded to ballot resulting in Mr Durham receiving seven votes. He was declared the unanimous choice of the council.

PETITIONS

From B Goldsmith and others asking that an ordinance be passed imposing and regulating licenses. Petition filed.

An invitation was read from the executive committee to attend the forthcoming celebration at Salem on the Fourth and to participate in the exercises of the occasion. On motion the communication was accepted and filed. The auditor and clerk was also authorized to write to the committee and inform the gentlemen composing the same that owing to prior engagements the mayor and members of the common council would be unable to attend the celebration.

CONTESTING THE SEAT

The following communication was read and on motion of Councilman Andrus referred to the judiciary committee:

To the Common Council of the City of Portland:
The petition of R Mendenhall a citizen of said city and resident of the Third ward therof respectfully shows that at the general election in said city held on the [illegible] inst your petitioner and one Henry Weber were voted for as candidates for councilmen from said ward; that the judges of said election returned your petitioner as having received 320 votes and said Weber 331 votes; that in truth your petitioner received at least 4 illegal votes and said Weber not more than 310 votes; that the following named persons voted at said election for said Weber, viz: N Wright John Figles —— Ross C Viles H Cass J H Callard M Castel Jas I Daly Jeff Stimson L Parmenter —— Davidson and W H Wood and that they were not qualified voters of said ward; that a certain person whose true name cannot at this time with any reasonable certainty be ascertained and whom we will designate as John Doe voted at said election for said Weber and was not a qualified voter as also did divers other persons whose whereabouts can not now be ascertained, but who were not qualified voters in said ward. That one voted for your petitioner by placing the name of R Mendenhall over that of said Weber with a paster and the same fell off as the ticket to which it had been attached was unfolded by Ed Hall one of said judges, and thereupon said judges counted said ticket for said Weber for said position and did not count the same for your petitioner; that two tickets having the name of your petitioner thereon were not counted by said judges.

Wherefore your petitioner asks that the validity of said election be inquired into and that your petitioner be declared elected councilman from said ward and entitled to a seat as councilman from said ward in the common council of said city.

No remedy ever introduced in the market of Oregon has given more universal satisfaction than the *Oregon Blood Purifier*. Unsolicited certificates praising its wonderful qualities from people competent to judge are sufficient recommendations to satisfy the most skeptical. It has become a family favorite highly valued in every household. Being perfectly harmless and pleasant in taste it is easily taken by any child and by the most delicate female as well as the most robust man. There is no possible danger of any serious results from a continued use of this famous medicine. Oregon's choicest medicinal herbs carefully selected and scientifically prepared, are the principal ingredients of this celebrated purifier of the blood, regulator of the stomach bowels and kidneys and eradicator of any complaint having its origin from a disordered state of these functions such as Biliousness in its worst form, Costiveness, Dyspepsia, Indigestion, Heartburn, Sour Stomach, Sick Headache &c. As a guard against fever and ague it is unexcelled. People living in malarious and miasmatic localities or when the ague is already lodged in the system should use in addition to the *Oregon Blood Purifier* the *Willamette Fever and Ague Mixture* which is put up especially for the Willamette Valley and the most certain remedy for Fever and Ague, Mountain Fever, Chills Intermittent and Bilious Fever, Dumb Ague &c. &c. Prepared at the Pharmaceutical Labratory of WM PFUNDER & CO corner First and Ash streets.

Dr Mintie's Vegetable Nephreticum,

Will cure all diseases of the Kidneys, Bladder and Urinary Organs. Hundreds have been cured after all other remedies have failed. His English Dandelion Pills have no equal in all cases of Diseased Liver, Dyspepsia or any Billious derangement. Many of your leading citizens of this city will vouch as to their virtues. To be had of all druggists.

An Undeniable Truth

You deserve to suffer and if you lead a miserable unsatisfactory life in this beautiful world it is entirely your own fault and there is only one excuse for you—your unreasonable prejudice and skepticism which has killed thousands. [illegible]

New York Freights and Markets.

NEW YORK, June 27.—Freight market remains very quiet and there is nothing new to note further than that the steamer John Smith has finished, having received sufficient freight to put her down to her draught. Rates remain steady and with the departure of the John Smith are firmer. At Philadelphia matters are quiet and latest advices state that the Santa Clara will not be full before the 6th prox.

Markets generally dull. Flour quiet, 5@15 cents lower. Wheat active, but 2@3c lower. Hides unchanged; petroleum steady.

The Wheat Crop of 1878.

Our readers all are cognizant of the fact that the product of wheat in Oregon this year is likely to be anywhere between 5,000,000 and 7,000,000 bushels. The inhabitants of the state will consume all of 1,000,000 bushels. Say the crop yields 6,000,000 bushels the state ought to export five millions.

An estimate of the probable wheat crop of the whole United States is now "going the rounds of the press," which, although hardly other than a guess at quantities, is yet considered moderate and is very suggestive in some important respects. The estimate gives figures for the crop in 21 states, viz: Six New England states, New York, Pennsylvania, Tennessee, Kentucky, Arkansas, Texas, Ohio, Indiana, Illinois, Michigan, Wisconsin, Nebraska, Kansas, Iowa and Minnesota. The total is the enormous sum of 301,000,000 bushels. This is 9,030,000 tons; to move it would require 903,000 cars, each carrying ten tons; to drag these cars, in trains of twenty each, would require 45,150 locomotives; If these trains were spread along the railways at a distance of a quarter of a mile from each other, they would cover 11,287 miles of track; they would form four lines extending clear across the continent from New York to San Francisco. At $1 a bushel, this wheat crop would represent $301,000,000, and it would require very nearly all the legal tender notes in the country to buy it. Here is the estimate of the crop in the twenty-one states named:

	Bushels.
Minnesota	60,000,000
Iowa	45,000,000
Kansas	30,000,000
Nebraska	25,000,000
Wisconsin	18,000,000
Michigan	10,000,000
Illinois	15,000,000
Indiana	20,000,000
Ohio	16,000,000
Texas	12,000,000
Arkansas	7,000,000
Kentucky	8,000,000
Tennessee	10,000,000
Pennsylvania, New York & New England	25,000,000
Total	301,000,000

But this is not all. There is California, which produces a most valuable and nutritious wheat, and whose crop this year will be, probably, 60,000,000 bushels. Then there are New Jersey, Delaware, Maryland, Virginia, North and South Carolina, Georgia, Alabama, Mississippi, Louisiana, Missouri, Colorado, Utah, Nevada Oregon and Idaho. Each of these states and territories produce some wheat. The forthcoming crop in these sixteen states and territories may be safely set down at 150,000,000 bushels; so that the whole wheat crop of the country for the harvest of 1878 will not be less than 450,000,000 bushels or 13,500,000 tons. These figures are stupendous and unexampled. It is an established fact in political economy that a prosperous, civilized community will consume seven bushels of wheat per capita per annum—if that amount can be had within certain limits of cost, such cost in England, for instance, being fixed at 50 shillings per quarter, while here it may be placed at $1 per bushel. We have in this country a population of 45,000,000, and we supply in the West Indies, Central and South America, say, at the lowest estimate, 5,000,000, or 50,000,000 in all on this side of the Atlantic. At seven bushels per capita these consumers require 350,000,000 bushels, leaving only 100,000,000 to ship to Europe, one half less than we are sending there this year.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.
